Vintage Film Presentations for All Occasions

We have collected a large number of extremely interesting vintage movie films from as far back as the 1920's. These films cover a wide variety of topics including government information productions, vintage car & television ads, educational films, early music videos called "Soundies" and even classic cartoons.

Many of these, such as the government-produced Depression era film "Your Social Security" and "The Truth About Taxes" from the 1940's, offer a rare opportunity to compare past and present viewpoints. While these presentations are primarily designed for entertainment, they offer a rare historical look at the past, heavily laden with nostalgia.

These films have been transcribed to DVD for easy presentation to groups and organizations of all sizes, using state-of-the-art video projectors. Our rates are reasonable, and presentation lengths can be tailored to fit your group's individual time frame. Please call or e-mail for more information or to schedule a presentation.

List of Topics & Run Times (min./sec.)
